**Important documents for Xxx's children's medical check-up booklet
"New supply of screening ID labels"**

Dear parents, dear guardians,

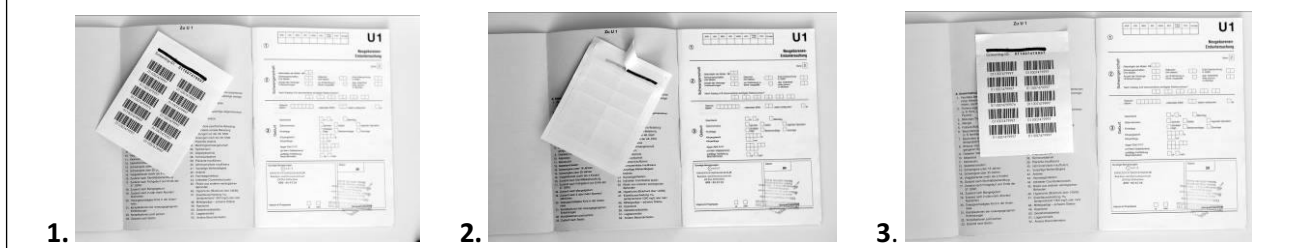

Regular participation in early diagnostic examinations is crucial for the healthy growth of children.

We, the Central Office for the invitation and feedback process, collect data on participation in the early diagnostic examinations in Berlin. In order to notify us of your child's participation in the respective medical check-up (**currently UX**), your paediatrician in Berlin needs the screening ID labels sent with this letter.

Have you moved from another federal state?

Should you already have screening ID labels with a different number in Xxx's children's medical check-up booklet, then it is important that you inform us of this number. This ensures that participation notifications are correctly assigned. You can find further information on our website and in the information for parents enclosed.

Please affix the block of stickers to the inside front cover of the "yellow" children's medical check-up booklet.

Information in other languages can be found on the Internet under:

https://kindervorsorge.charite.de/fuer_eltern/mehrsprachige_informationen/

For further questions please ask your paediatrician, showing him/her this letter.

We wish you and your child all
the best for the future –
above all, good health!

Your team for the invitation
and feedback process
for early diagnostic examinations
